

MUSIC CLUB

A school Music Club is a creative space for students who are passionate about vocal performance, instrumental music, songwriting, or sound production. It provides an avenue to explore musical talents, collaborate with peers, and perform at school events.

Our school music club has always been a vibrant space for students passionate about vocal and instrumental performance, but this year we took our talent to the next level. Representing our institution with dedication and passion, our members traveled to regional competitions in Chhatrapati Sambhajnagar and Jalna. Competing against talented groups and performers from across the region, our team's hard work paid off as we successfully secured top prizes and brought home proud trophies for our music club.
